

# The Green Deal

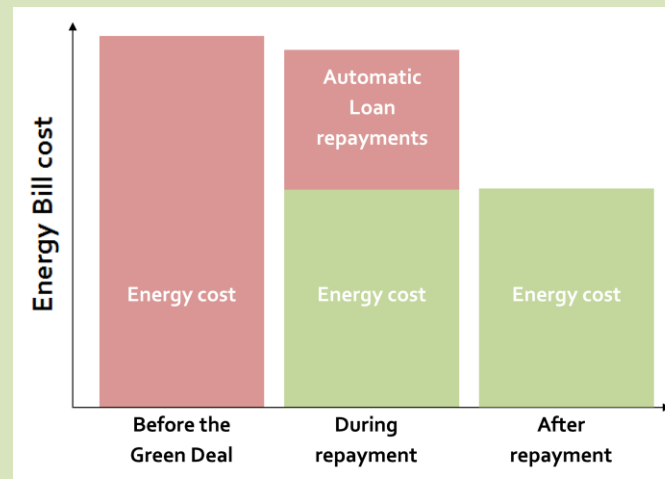

## What it is

Household energy efficiency assessments to suggest improvements which can be paid for using a Green Deal finance package linked to future energy bill savings.

- Available for all households regardless of tenure
- Works alongside the Energy Companies Obligation (ECO) with grants to assist eligible households

## How it works

### Green Deal Finance

- No upfront installation cost
- Loan repayments linked to energy bill savings
- Must meet the Golden Rule: savings greater than costs

### Green Deal Measures

- Insulation
- Heating systems
- Renewable energy
- Lighting systems
- Heating controls
- Draft proofing
- Glazing
- Wastewater heat recovery
- and many more measures...

Cashback incentive is available for early adopters e.g. up to:

- £100 for loft insulation
- £250 for cavity wall insulation
- £270 for a boiler upgrade
